

## **MALLEIN Press Release ITMA 2019 (UCMTF)**

### **MALLEIN Stand Hall 4 B213**

MALLEIN is a specialist of the beams for warping and weaving, able to answer to all needs of the textile activity. The entire integration of its aluminum foundry and all of its production facilities allow MALLEIN to answer to all specific enquiries particularly thanks to its know-how in special aluminum alloys.

MALLEIN will exhibit some of its new aluminum canisters at ITMA, canisters that are improving each year, in order to produce them stronger and with a great geometric precision. It will also propose a flange development for the big barrels that are adapted for delicate fibers such as carbon.

MALLEIN is certified ISO 9001 V 2015, ISO 14001 V 2015 and OHSAS 18001 V 2007.
